

Chemical Concentrates

Putting You in Control

The "TMH Super Concentrate System" is a safe and effective way of maintaining total control of the chemical spend in any establishment. Controlled dosage ensures the correct dilution rate every time thereby eliminating over-consumption and reducing costs. Through our Blend Station System or our Ultra Dose System, we can offer the perfect solution for any establishment.

Support

Our technical sales team are industry professionals and are available at anytime to assist your staff with product demonstrations, questions or technical support.
